

P1013 (12106RRUS01U)

PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of: Silver, Andrew

Serial No.: 09/812,975

Filed: March 20, 2001

For: An Enhanced Emulation System on a Communication Network

Group Art Unit: 2664

Examiner: Fox, Jamal A.

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

DECLARATION OF ANDREW SILVER

STATE OF TEXAS

COUNTY OF DALLAS

1. I am over twenty-one years of age, have never been convicted of a felony, and am fully capable, competent and authorized to make this declaration. I am acquainted with and have personal knowledge of the facts stated herein, and they are all true and correct to the best of my knowledge and belief.
2. I am an engineer employed by Nortel Networks Limited. My area of work for Nortel is in Wireless Internet (Mobile IP) and related Internet, telecommunications, and computer technology. I have developed and worked on a number of inventions in this field while employed by Nortel.
3. In 2000, I was an employee of Nortel and worked on a number of different projects for

Nortel in the telecommunications and Internet fields. One of these projects was the above-identified invention.

4. Nortel Networks Limited performs an internal review and evaluation of employee inventions submissions. An "Invention and Disclosure Submission Reply" document is utilized by the company's engineering and operations management to evaluate new ideas and innovations for further development, implementation, and suitability for patenting.
5. As part of the internal review and evaluation, an "Invention Disclosure Submission Reply" was prepared by myself for the subject invention on or before February 4, 2000. The first page of the "Invention Disclosure Submission Reply", which is only one of many pages from the original document, indicates that the basic elements of the invention were submitted for review on or about February 4, 2000, and my conception for the invention was no later than February 4, 2000. I conceived the invention and submitted the invention for formal review and evaluation by management prior to September 20, 2000. I made a formal presentation of the developed invention on or about September 20, 2000 to management.
6. In the months following the initial submission of the Invention Disclosure Submission, I continued to diligently perfect the invention. Shortly after the formal presentation in September 2000, I was advised that the invention had been approved for patent submission. This approval also occurred prior to December 7, 2000.
7. Following the approval process, I was contacted by either D. Scott Hemingway, Esq. and/or Malcolm W. Pipes, Esq. as outside patent counsel retained to prepare and file the patent application on the subject invention. Over the next several weeks, I discussed several particulars of the invention with either Mr. Pipes or Mr. Hemingway, reviewed a draft application prepared from the information provided to them, and approved the final draft for filing.

8. The patent application embodying my claimed invention was filed on March 20, 2001 after I reviewed the draft application and approved its contents.

I declare the above is true and correct under penalty of perjury.
